Springboro, Ohio - April 20, 2023:

Accelevation LLC is pleased to announce the acquisition of a new business in their holding group. Workplace Modular Systems, located in Londonderry, NH, designs and manufactures workstations used in biotechnology, labs, research and more. Throughout their 60+ year history, they have used innovative design and superior craftsmanship to meet demanding applications with workstation solutions that deliver great value with excellent ergonomics. Workplace has built its reputation for solid, well-crafted products with American-made durability.

Accelevation President, Michael Rubiera, said, "We are thrilled to welcome Workplace to the Accelevation portfolio of innovative companies. We were immediately impressed with Workplace's deep product expertise and diverse, loyal customer base. There are attractive potential synergies from the acquisition, particularly related to SkyLab, which will further fuel our growth."

Over the past 24 months, Accelevation has grown rapidly through both acquisition and substantial organic growth. Since the start of 2021, Accelevation has increased its employee base from 25 to over 200 full-time associates, added more than 250,000 sq. ft. of additional manufacturing capacity, and partnered with LFM Capital to continue to invest in US-based manufacturing.

About Accelevation, LLC

Accelevation is a private holding company dedicated to the acquisition, investment in and growth of small to mid-size light manufacturing companies. The organization's mission is to build businesses and work cultures that positively impact employees, their families, their community and their customers. At its core, Accelevation understands that it is their responsibility to plot a course for a more mindful way of doing business.
